

Hydrogen Seminar

Fluid System Components in Hydrogen Plants

Safe selection, calculation and sizing of components for hydrogen systems

Key aspects of the training:

- **Fluid system components in various H₂ applications**
- **Materials - hydrogen embrittlement**
- **Selection of tubing, valves and pressure regulators for H₂**
- **Sizing of tubing / piping - Flow velocities**
- **Design considerations for valves**
- **Calculation and sizing of valves and pressure regulators**
- **Technically permanent leak proof fluid system components**

Practical seminar for plant operators, plant designers, installation companies and manufacturers of fluid system components

Lecturer:

Dipl.-Ing.(FH) Andreas Holl
Ingenieurbüro Holl
Stutensee – Germany

Over 25 years of experience in the field of fluid system components and technical gases.
Experienced lecturer in Germany in the field of hydrogen and oxygen training.
Active for leading German, European and Canadian companies in the field of hydrogen.

WASSERST

November 13th 2023 from 08:30 to 16:30

Event location:

Qubus Hotel Gdansk

Ul. Chmielna 47 - 52

80-748 Gdansk

Poland

Cost: 1990 PLN plus VAT.

Catering included

Registration under:

schulung@ingenieurbuero-holl.de

Contact Address:

Ingenieurbüro Andreas Holl

Kandelstrasse 4r

76297 Stutensee

Germany
