

Oxygen Seminar

Fluid System Components in Oxygen Plants

Safe selection, calculation and sizing of components for oxygen systems

Key aspects of the training:

- Fluid system components in various Oxygen applications
- Materials for Oxygen systems
- Impact zones in Oxygen systems
- Cleaning and packaging of components for O₂ systems
- Selection of tubing, valves and pressure regulators for O₂
- Permissible flow rates in Oxygen systems
- Ignition mechanisms in Oxygen systems
- Calculation and sizing of valves and pressure regulators

Practical seminar for plant operators, plant designers, installation companies and manufacturers of fluid system components

Lecturer:

Dipl.-Ing.(FH) Andreas Holl

Ingenieurbüro Holl

Stutensee – Germany

Over 25 years of experience in the field of fluid system components and technical gases

Experienced lecturer in Germany in the field of hydrogen and oxygen training

Active for leading German and European companies in the field of oxygen

October 18. 2023 from 08:30 am to 04:30 pm

Event location:

Canadian German Chamber of Industry
and Commerce Inc.
480 University Avenue, Suite 1500
Toronto, Ontario M5G 1V2

Cost: 795 CAD \$ plus VAT.
Including food and drinks

Registration under:

schulung@ingenieurbuero-holl.de

Contact Address:
