

# Hydrogen Technical Seminar

Andreas Holl, brings us over 25 years of experience in the field of fluid systems and technicals gases in Germany. As Managing Director of engineering services, Andreas is an expert in pressure vessels and pipeline design, offering custom solutions and consulting to the specialty Fluid, Gases & Hydrogen market.

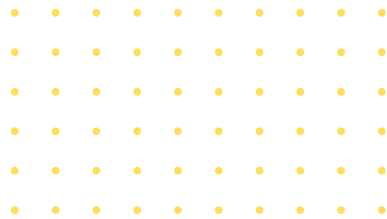

Andreas will share his knowledge with the characteristics of hydrogen and purity gases along with the fluid system components required in Hydrogen plants. Topics include understanding embrittlement, proper procedure for filling a high pressure hydrogen storage system and placement of O2 and H2 sensors, check valves & safety valves. All to conclude with installation and product selection for a successful permanently leak proof system.

**Andreas Holl**  
Hydrogen Specialist

**Hilton Garden Inn**  
746 Old Hespeler Rd  
Cambridge, ON, N3H 5L8

Doors open for light breakfast at 8am  
Lunch Is 12-1pm  
Overnight Accommodations can be made at:
