

# Hydrogen Workshop

The workshop will delve into the intricacies of process engineering and the design of a hydrogen infrastructure.

Topics to be covered include:

- Where to place check or safety valves?
- Why use double block and bleed configurations?
- Where should O<sub>2</sub> and H<sub>2</sub> sensors be positioned?
- What is the proper procedure for filling a high-pressure hydrogen storage system?
- Sizing of piping / tubing, valves and regulators

Participants will collaborate in groups of up to 4 people. Throughout the workshop, we will actively engage in designing and sizing a complete hydrogen supply system, which includes nitrogen purging.

Lecturer:

Dipl.-Ing.(FH) Andreas Holl  
Ingenieurbüro Holl  
Stutensee – Germany

30 years of experience in the field of fluid systems and technical gases.

Experienced lecturer in Europe in the field of hydrogen and oxygen.

Active for leading German and European companies in the field of hydrogen.

**September 30th 2026 from 09:00 am to 05:00 pm**

**Event Location:**

**Holiday Inn & Suites Mississauga West / Meadowvale**

2565 Argentia Road, Mississauga,  
ON L5N 5V4 Canada

Cost: 795 CAD \$ plus VAT.

Early bird discount available until 5<sup>th</sup> of June 2026

Group discounts are available

Catering included
